

Health Careers Information and Enrichment (HCIE) Sessions

HEALTH CAREERS 101

This fun and hands-on presentation gives students information on what health career fits them best.

PATHWAYS TO COLLEGE

This presentation focuses on topics such as SAT/ACT preparation, College Applications, Financial Aid, and Personal Statements.

HEALTH CAREERS “The Lost Stories”

It is easy to relate health careers to doctors and nurses. But what about those other health careers that no one really talks about?

North Carolina Health Careers Access Program

The HCIE Workshop is a hands-on outreach program for students in grades 3-12, designed to stimulate their interest in health career professions. Each one-hour workshop is highly interactive with a focus on small group and cooperative learning activities that facilitate discussions about health careers, goal-setting, improving academic skills, and preparing for college and health professions schools.

Workshops are FREE to pre-college educational institutions and organizations across the State. Workshop topics may be customized to fit rele-

To schedule an HCIE workshop, visit our website <http://cheop.unc.edu> or contact our Pre-College Outreach Coordinator.
